

9 Liquid Primer

Description

POLYKEN 1019 or 1027 Liquid adhesive is recommended for use with our coating systems only. The Liquid adhesive consist of a mixture of butyl rubber and synthetic compound and a solvent-gasoline. The Liquid adhesive is quickly drying applied to the appropriately prepared pipe surface before application of inner layer tape. The function of Liquid adhesive is to provide a bonding medium between the pipe surface and the inner layer tape. It is suitable for hand brush or machine spray application. It can be applied by hand or machine.

Hand-application : app. 0,2 litre/m² pipe surface

Machine application: app. 0,1 litre/m² pipe surface

Features

Heavy duty adhesive

Quick Dry

Conformable to irregular pipe

Compatible with general coating system
